

FLOWW STATION®

patented technology CE

Making Tech Organic

Thank you for purchasing the Floww Station®. The Floww Station® is a light and easy to transport all-in-one tower. This has been specially developed to support and preserve the natural energy of your office, hotel room, holiday home and of course your own home. In our products we make smart use of the available electromagnetic fields (EMF) as a source of energy to create a field with frequencies that are also found in nature. This new field is more organic - "organic" in nature and more attuned to you. If you put the Floww Station® in your environment, you will feel better in a wireless environment. In addition, you can take full advantage of your devices throughout the day, while supporting your vitality.

Sustainable

No batteries or other resources are required to use Floww. Floww is sustainable for people and the planet. Users confirm that this patented Floww Health Technology promotes the maintenance of rest and vitality in the body. Thanks to the Floww® Field, users often notice an increase in their energy as soon as they start using a Floww® product.

Product specifications Floww Station®

Size : 20cm x 20cm x 41cm
 Weight: 2kg
 Material: Wood/Recyclable thermoplastic
 Color: Wood/Green

Reach of the Floww Station®

The Floww Station® has a range of approximately 12 metres. The Floww field is created around the Floww Station®.

Instructions for use of the Floww Station®

- You place the Floww Station® at a distance of 2 to 6 meters from your workplace, hotel bed, camp bed or the place in your house where you often go. You can also place it in the living room or on the floor where your children sleep. You can also use multiple Floww Stations® for larger surfaces.
- Some people are more sensitive than others. Choose the distance of the Floww Station® that suits you.

Scientific Research

Over the years we have built up a research portfolio.

This concerns both our own research and that of external parties into the effectiveness of Floww products. See for example under <https://floww.com/en/research/>. Are you a researcher and would you like to conduct research into Floww? Send an email to: info@floww.com.

The Floww® Technology is based on three principles:

- 1) *Energy Harvesting* – Just like solar panels, Floww products make smart use of already present electromagnetic fields (EMF). As a result, Floww does not need batteries or electricity. Another advantage of Floww is that as the electromagnetic field increases in strength, the natural field increases proportionally.
- 2) *Biomimicry* – The science of Biomimicry strives to mimic the intelligence of nature in the design and development of products, systems and processes. In this way Floww imitates nature at the level of electromagnetism. Your phone then becomes a source of natural energy and is more attuned to you.
- 3) *Making tech organic* - We make Tech Organic by combining *Energy Harvesting* with *Biomimicry*. People, animals and plants function better in nature. In our Floww products we have combined technology (patented electrical applications) with organic frequencies such as the Schumann frequencies. This way you can enjoy your laptop, mobile and other technological developments more.

In the production and packaging of Floww® products, environmentally and people-friendly materials are used as much as possible.

User tips and warranty

For additional user tips, warranty conditions and instructions for use of all Floww® products, see www.floww.com. Important: Floww® products are not medicines. In case of physical complaints, it is advisable to always contact your doctor.

Withdrawal symptoms

If you have not used Floww® products before and are just starting to use the Floww Station®, you may experience withdrawal symptoms, such as a mild headache and/or nausea. To prevent possible withdrawal symptoms, we recommend drinking enough (spring) water for the first two weeks: adults at least 1.5 liters per day, children over 12 years one liter and children up to 12 years half a liter per day. If withdrawal symptoms have not subsided after one or two weeks, you can always contact us via info@floww.com or via the therapist through whom you purchased the Floww® product.
